INTRODUCTION

To create a quality culture in an institution, the stakeholder's feedback plays an important role. Their observations from time to time and their constructive feedback in the overall development of an institution help in improving the drawbacks lying leading the institution to achieve its goal.

The stakeholders are involved in this exercise either directly or indirectly. The students, teachers, parents, alumni, and employers all play a role in guiding the institution.

Students remain the foremost stakeholders of an institution and as they are directly involved to the institution their feedback are invaluable. **Teachers** who are connected in the entire process of curriculum delivery also remain another significant stakeholder of an institution alongside the students to guide the institution for its holistic development keeping ahead the students' welfare. The observation and suggestion of the **Alumni** of a college is indispensable to any institution as it can better reflect the overall performance and development of an institution from their perspective as a part of it once. The views and opinions of parents are equally indispensable as stakeholders who serve as another major driving force of an institution.

Considering the significance of the views and opinions of all these stakeholders, the college initiated the process of taking feedback both formally and informally from time to time and the feedback were forwarded to the higher authority of the college for actions to be taken. The questions were basically designed with yes/No pattern and seeking suggestions in the last 1 or 2 questions depending upon the questionnaire of the stakeholder.

The responses were then analyzed and actions were taken accordingly.
